ABOUT ME

Full-stack developer with Flutter, Angular, Node.js and MongoDB experience, building mobile and web applications, REST APIs and AI-powered features, including ERP systems and cross-platform apps.

EDUCATION

SRM Institute of Science and Technology (Ramapuram), Chennai, India Aug 2024 – May 2028
Bachelor of Technology – Computer Science and Engineering; GPA: 9.1

SKILLS SUMMARY

Languages: Dart, C++, C, Python
Frameworks: Flutter, Angular, Node.js, Express.js
State Management: GetX, Provider
AI: Ollama and other AI APIs
Databases: MongoDB, Firebase, Supabase
Tools: Git, GitHub, Postman, Android Studio, Figma
Soft Skills: Leadership, team and event management, public speaking, time management
Leetcode Profile : https://leetcode.com/u/vakulabhushan/

EXPERIENCE

Angular Developer Intern – Acceedo IoT Solutions, Coimbatore, India Jun 2026 – Jul 2026

- **Local AI for client SKYFAST:** Set up and deployed a local LLM (Ollama) for the client SKYFAST and built a hybrid AI solution on top of it, routing simple queries to the database and complex queries to the AI model to optimise response times.

Flutter Developer Intern & Secondary Team Lead – Healthletic Lifestyle (Remote) May 2025 – Oct 2025

- **Healthletic mobile app:** Developed a cross-platform Flutter fitness app for tracking steps, meals, water intake, medicines and workouts. Integrated meal planning, calorie and nutrient goal tracking, reminders, and fitness challenges with friend invites, leaderboards and rewards, plus secure REST API integration for real-time updates and data synchronisation.
- **Team lead role:** As secondary team lead, allocated tasks, tracked progress, coordinated with the team, presented updates in company meetings, maintained the plan of action (POA) and documented minutes of meeting (MOM) after each discussion.

Flutter Developer Intern – GT Softwares, Coimbatore, India Apr 2024 – Jun 2024

- **GT Poll (v5):** Designed and implemented the UI for the Add Poll and Vote Poll modules and integrated APIs for poll commenting, liking and sharing.
- **Progress Tracker (ERP):** Built an ERP-based app for managing manufacturing operations with five modules (Melting, Molding, Fettling, Masters, Maintenance) for data entry and dynamic reports, using Firebase Firestore and Auth.

PROJECTS

PersonaLens – Flutter Mobile App (AR memory assistant) (view) Team Invicta

- Built the cross-platform Flutter client (Android, iOS, Windows, macOS, Web) for an assistant that helps people with memory-related conditions recognise familiar faces and recall past interactions.
- Implemented live captions with speaker attribution (16 kHz PCM audio streamed over WebSocket to a Whisper backend), host voice enrollment, real-time face recognition with bounding-box overlays, and people and session history, with Supabase authentication and a FastAPI backend.

IFA ERP – Angular, Node.js, Express, MongoDB (Private repo) Jul 2026

- Developed a full-stack inventory management ERP for an MSME company in Coimbatore, covering products, inventory, stock movement, order management and real-time reporting.

Card Vault – Flutter, Supabase (View)

- Developed a digital business card manager with AI-powered OCR, image storage and a Supabase backend for organising cards.

KEY ACHIEVEMENTS

- Winner of 4 hackathons – VITC Devshouse 26(Top 5 among 3500+ teams), Vibex winner 1St place, SRMIST Datathon 26 3rd place & SSN ICK-A-THON 3rd place.
- General Secretary, Logic Play Club (college).
- Launched my first mobile app on the Play Store (Quickmetrics) – Sep 2025.
- First place in the Project Presentation, Science Forum, college – Oct 2024.

CERTIFICATES

- Iot-Network Specialist – Reliance Foundation (2026)
- Getting started with Artificial Intelligence – IBM Skillsbuild (2026)
