ABOUT ME

Full-Stack Developer with expertise in Flutter, Angular, Node.js, Express, and MongoDB, building scalable mobile and web applications. Experienced in designing responsive user interfaces, developing RESTful APIs, integrating AI-powered features, and delivering end-to-end solutions, including ERP systems and cross-platform mobile applications. Passionate about writing clean, maintainable code, solving real-world problems, and continuously learning emerging technologies.

EDUCATION

- SRM institute of Science and Technology (Ramapuram)** Chennai, India
Bachelor of Technology – Computer Science and Engineering; GPA: 9.1 Aug 2024 - may 2028

SKILLS SUMMARY

- Languages:** Dart, C++, C
- Frameworks:** Flutter, Angular, Node.js, Express.js
- State Management:** GetX, Provider
- AI:** Ollama and Other AI APIs
- Database:** MongoDB, Firebase, Supabase
- Tools:** Git, GitHub, Postman, Android Studio, and Figma
- Soft Skills:** Leadership, Team & Event Management, Public Speaking, Time Management

EXPERIENCE

- GT Softwares** Coimbatore, India
Flutter Developer (Internship) Apr 2024 – Jun 2024
 - GT Poll (Version 5):** Contributed to the fifth version of the GT Poll application. Designed and implemented UI for Add Poll and Vote Poll modules. Integrated APIs supporting poll commenting, liking, and sharing functionalities.
 - Progress Tracker (ERP-based Project):** Built an ERP-based Progress Tracker application for managing manufacturing operations. Designed five modules — Melting, Molding, Fettling, Masters, and Maintenance — allowing users to input data and view reports dynamically(Using FireBase Store and Auth).

- Healthletic Lifestyle** Remote
Flutter Developer Intern & Secondary TL (internship, Part-time) May 2025 - Oct 2025
 - Healthletic Mobile App:** Developed a cross-platform Flutter-based fitness app enabling users to track steps, meals, water intake, medicines, and workouts. Integrated meal planning, calorie and nutrient goal tracking, reminders, and fitness challenges with friend invites, leaderboards, and rewards for enhanced engagement, along with secure RESTful API integration for real-time updates and seamless data synchronization. Served as the secondary Team Lead, managing task allocation, tracking progress, coordinating with the team, presenting updates in company meetings, maintaining the plan of action (POA), and creating minutes of meeting (MOM) documentation after each discussion. meltemListEnd

- Acceedo iot solutions** Coimbatore, India
Angular developer (Internship) Jun 2026 – Jul 2026
 - AI Integration on a clients software:** Implemented a hybrid AI solution using Ollama (Local LLM), optimizing response times by routing simple queries to the database and complex queries to the AI model..

PROJECTS

- Personalens [AR]:** People with memory-related conditions, such as dementia, often struggle to recognise familiar faces and recall past interactions. This can cause confusion, anxiety, and reduced independence in daily life. Caregivers and family members also face challenges in tracking interactions and providing contextual support when they are not physically present.
- Card Vault:** Developed a Flutter-based digital business card management app with AI-powered OCR, image storage, and Supabase backend for seamless card organization.
- IFA ERP:** Developed a full-stack ERP-based inventory management system for MSME company in coimbatore, featuring product, inventory, stock movement, order management, and real-time reporting using Angular, Node.js, Express, and MongoDB.

KEY ACHIEVEMENTS

- Won First place in the Project Presentation in the Science forum in my college - Oct 2024
- Launching my First Mobile App in playstore(Quickmetrics) - September, 2025
- Developed a full-stack ERP system for inventory management warehouse, integrating inventory tracking,stock movement, order management, and real-time analytics - July, 2026 .
